

WHISPER[®] CELLULAR

SHADES

*Stylish, Versatile &
Energy Efficient.*

WHAT ARE WHISPER® CELLULAR SHADES?

Whisper Cellular Shades combine style, versatility and functionality to offer an innovative and energy efficient window covering solution to suit your home.

A variety of operating systems and design options provide the ultimate in light and privacy control whilst slimline hardware minimises light gaps and maximises views.

Unparalleled in terms of versatility and design, Whisper Cellular Shades truly are a world class, sophisticated window covering solution.

CELLULAR SHADES

OFFER SUPERIOR

ENERGY EFFICIENCY

Want to save up to 32%* on your heating costs?

Whisper Cellular Shades are designed with a unique honeycomb cell shape that creates pockets of energy-saving insulation.

The cell construction traps air and makes it more difficult for heat energy to transfer in and out of the window, improving energy efficiency and reducing your heating and cooling costs in both Winter and Summer.

| PRODUCT | R-VALUES** |
|--|------------|
| 20mm Blockout Brushstroke, Sunterra & Sabelle | 0.53 |
| 10mm Blockout Sabelle | 0.50 |
| Indiana Double Cell Translucent | 0.41 |
| 20mm Translucent Brushstroke, Sunterra & Sabelle | 0.32 |
| Sabelle 10mm Translucent | 0.31 |
| Transparence 20mm Sheer | 0.17 |
| Zen Blockout Fabric Roller Blind | 0.21 |
| 35 Insulated Roof Panel | 1.05 |
| 65mm Pink Batt | 1.50 |

**The R-Values are the combined measurement of 3mm (one-eighth inch) Cl glass (R=0.127) plus window covering and are reported in metric SI units. Thermal properties are determined by a certified third party laboratory utilising accepted ASTM, NFRC and WES standards and procedures. Measurement may vary based on window type and method of installation.

*Savings are based on the installation of fully-recessed, reveal-mounted 20mm single cell blockout fabric in an average home in Sydney, compared with the House Energy Rating standard of Holland Blinds from AccuRate, in that home. These calculations have been modelled by an independent third party. Savings will vary based on window type and installation.

Whisper Cellular Shades offers you the ability to reduce heat through your windows in both winter and summer.

R-value is a measure of a product's ability to resist heat flow.

The higher the R-value, the more insulation a product provides and the better it is at reducing heat loss.

ULTIMATE CHILD SAFE SOLUTION

Whisper Cellular Shades are the ultimate in child-safe window coverings offering innovative operating systems to enhance the safety of children and pets.

CordLess

Cordless lifting system where the cellular shade raises and lowers by moving the rail either up or down.

Motorised

Effortless operation at the press of a button where the bottom of the blind is either raised or lowered with a remote control.

WHY CHOOSE

WHISPER® CELLULAR

SHADES?

Original Design

No other cellular product on the market compares to the quality that Whisper Cellular Shades have perfected since pioneering the honeycomb concept over 30 years ago.

Sound Absorption

Perfect solution to **absorb sound** to quieten the home environment keeping exterior noise out.

Indoor Air Quality

For a fresh and healthy home, Whisper Cellular Fabrics have safe levels of Volatile Organic Compounds (VOCs). It meets the criteria set by the Green Building Council of Australia and is a smart choice for ensuring **optimal air quality**.

Innovative Operating Options

Versatile range of innovative lifting systems suitable for various window styles including skylights and shapes.

Flawless Structure

Minimal light gaps delivered by the headrail design and maximised outside views with **slimline hardware** and minimal stack size.

Unique Construction

Dust resistant fabrics provide easy maintenance and fabrics constructed with the unique **D-Cell design** ensures pleat retention.

SMALLER LIGHT GAPS

The headrail has been cleverly designed to ensure **minimal light gaps**.

The slimline hardware and cellular construction also allows for **compact stacking** once the shade is raised, ensuring outside **views are maximised**.

Quality Control

Whisper Cellular Shades undergo stringent product lifecycle testing, including testing of the functionality, longevity, energy efficiency, cleanability and so much more. This ensures that your cellular shade will look and function as good in several years' time as it does today.

LARGER SPANS

Larger windows usually require more than one blind to be linked together.

Whisper Cellular Shades are one of the only true window covering solutions for large windows, handling widths of just over 4m wide with one single blind.

This eliminates light gaps that are prevalent with linked blinds and improves energy efficiency.

Blockout

Translucent

Sheer

OPACITY: CONTROL LIGHT & PRIVACY WITH EASE

Blockout

Blockout fabrics offer the ultimate in privacy, both day and night. Open to allow sunlight in, close to enjoy total darkness.

Translucent

Translucent fabrics offer complete day time privacy while still allowing natural light to filter into the room.

Sheer

Sheer fabrics provide great day time visibility so you can still enjoy the view whilst diffusing the harsh outside light.

Pleat Retention with D-Cell

D-Cell ensures your cellular pleat **never falls out**, so you have a perfect pleat for years.

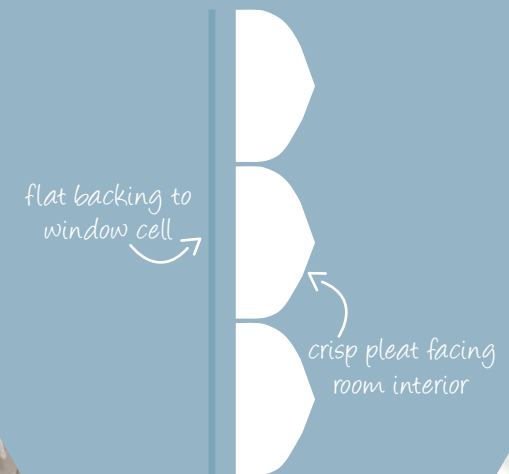

NON D-CELL

Replica cellular fabrics without D-Cell look round initially, but over time they flatten out and the crisp pleat becomes flat.

D-CELL

With 20mm Whisper Shades, you are assured your pleats will stay crisp over time.

10mm

Double Cell

20mm

CELL SIZE OPTIONS

20mm Cell Size

The larger cell size can be used for all types of windows - large, small, wide and narrow. The 20mm cell size looks particularly elegant over large window spaces.

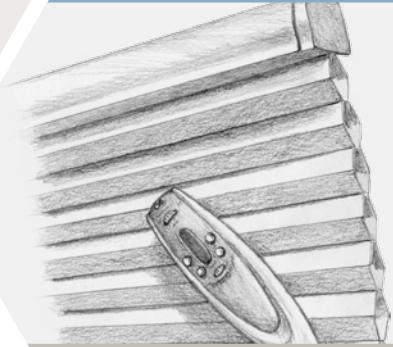

10mm Cell Size

The smaller cell size is typically great for small windows with the pleats looking proportionate to the window size.

Double Cell

Double Cell is an innovative, side-by-side cellular construction that provides enhanced thermal insulation, keeping out summer heat and winter cold.

Motorised

Effortless operation at the press of a button.

CordLoop

Continuous cord loop system to raise or lower larger shades.

CordLock

Easy operation provided by the traditional cord lock system.

CordLess

Cordless lifting system for raising and lowering at the touch of a finger.

HARDWARE:

OPERATING OPTIONS

Cellular Shades are compatible with most windows and offer a variety of innovative operating systems, with child-safe options for total peace of mind.

CordLock

- Slimline headrail
- Available with all design options

CordLoop

- Light and smooth handling for larger blinds
- Spring loaded cord tensioner keeping cords neatly out of the way
- Child safe as prevents hazards from loose cords

CordLess

- Ultimate choice for Child Safety
- Easy & smooth handling
- Clean, modern look with no cords

Motorised

- Ultimate choice for Child Safety
- Can operate larger spanning blinds
- Clean, modern look with no cords

Bottom-Up

Shade raises from the bottom.

Top-Down/ Bottom-Up

Shade can be adjusted from both top and bottom.

Duo-Lite

One shade combining two fabric opacities.

Top-Down

Shade lowers from the top.

Shapes

Cellular fabrics can cover virtually any shape of window.

Skylights

Ideal for windows on sloping walls or hard-to-reach windows.

HARDWARE:

DESIGN OPTIONS

Cellular Shades feature sophisticated design options providing complete control in light and privacy.

The options available depend on which operating system you have selected.

Available with:

- CordLock
- CordLoop
- CordLess
- Motorised

Top-Down

Available with:

- CordLock

Top-Down/Bottom-Up & Duo-Lite

Available with:

- CordLock
- CordLoop
- CordLess

FABRIC COLLECTION

Made from **anti-static durable, polyester** that aids in the **resistance of dust**, Whisper Cellular Fabrics are **easy to clean** and are available in a range of colours, cell sizes and opacities.

Fabric Testing

*Whisper Cellular Fabrics have **endured several tests** to ensure their capability to withstand the test of time.*

*From **durability of fabric** adhesives to strength in the fabric to **resist bowing**, Whisper Cellular Shades offer the ultimate in quality window coverings.*

CARE & CLEANING

Whisper Cellular Shades are easy to clean and are designed to be dust resistant.

General Care (GC)

Dust with a feather duster, compressed air or a hair dryer set on cool.

Spot Clean (SC)

Using warm water and mild detergent, dampen a clean white cloth and gently dab the spot on the fabric only. *Note: Rubbing can damage fabrics. Do not spot clean the valance.*

Vacuum (VC)

Gently vacuum with a brush attachment.

UltraSonic (US)

Professional ultrasonic cleaning services are an effective means of cleaning translucent fabrics only.

Bath tub (BT)

1. Fill a tub with warm water and mild detergent.
2. Open the shade and immerse the fabric of the shade into the water, do not submerge the headrail.
3. Rinse with clean water.
4. Fully close the shade and tilt it to allow excess water to drain off.
5. Reinstall the damp shade, lower it and let it dry completely.
